### Echoes

As a blinding light you came to us  
 And just as suddenly you went away  
 The universe still resonates  
 With echoes of "Sall Allah alaih"  
 The universe still resonates  
 With echoes of "Sall Allah alaih"

O flash of light, in the flow of time  
 O sweet Medinan beloved of mine  
 I speak with you in broken words  
 With a broken heart, and a broken rhyme

My life is you, and my love is you  
 My connection to The Lord above is you  
 My means to earn His love is you  
 My cure from distress and dismay  
 The universe still resonates  
 With echoes of "Sall Allah alaih"

As a blinding light you came to us  
 And just as suddenly you went away  
 The universe still resonates  
 With echoes of "Sall Allah alaih"

More generous there's never been  
 More beautiful was never seen  
 I surrender at your doorstep  
 All my dunya and my deen

O one who came to The Merciful's sight  
 With His words "Let there be light"  
 Convey my broken-hearted plight  
 That a glance of mercy be cast my way  
 The universe still resonates  
 With echoes of "Sall Allah alaih"

As a blinding light you came to us  
 And just as suddenly you went away  
 The universe still resonates  
 With echoes of "Sall Allah alaih"

No eye has seen such beauty as thine  
 No dame has borne such a one so fine  
 You're created free of flaw  
 As if by your own design

May The Lord, upon you, send His peace  
 Salutations, blessings, that never cease  
 And to us a gentle breeze  
 That makes us weep our nights away  
 The universe still resonates  
 With echoes of "Sall Allah alaih"

As a blinding light you came to us  
 And just as suddenly you went away  
 The universe still resonates  
 With echoes of "Sall Allah alaih"

## Pray My Lord

Hold 'em high, let me tell  
Of marvels that once appeared  
Shattering the cage of reason  
Hubris and contumely  
On this birth, a thousand signs  
Shone from east and shone from west  
Fragrance filled the earth and air  
Rebel demon turned to flee  
Can such light once have been not  
When another creature was?  
Can it be Heaven's intent  
Not to hail him anciently?

[Chorus]  
Pray my Lord and grant your blessings  
Always eternally  
Upon Muhammad, his companions  
Oh, and his family  
Pray my Lord and grant your blessings  
Always eternally  
Upon Muhammad, his companions  
and his family

Did the angels not revere  
As they bowed to Adam's form  
He who was the purest heir  
Of covenant and family?

Through God's justice, I am lost  
My actions give me away  
But His mercy to the world  
Proclaims hope eternally

Though I fear my wayward ways  
Still, my confidence is sure  
For he's pleading in my case  
Liberates me utterly

[Chorus]  
Pray my Lord and grant your blessings  
Always eternally  
Upon Muhammad, his companions  
Oh, and family  
Pray my Lord and grant your blessings  
Always eternally  
Upon Muhammad, his companions  
and family
